

Generative AI Products Additional Terms Of Use

1. Preamble

These Additional Terms govern the use of Generative AI Products in our Services and are incorporated by reference into the Greenomy Terms of Use (“[General Terms](#)”). Together, these documents are referred to as the “Terms”.

Any capitalised term not defined here has the same meaning as defined in the General Terms.

2. Obligations

The End Client is responsible for any Input it uploads or otherwise inputs to the Generative AI Products and represents to Greenomy that it has all necessary rights to use the Input with the Generative AI Products.

3. Additional Use Restrictions

In addition to the “Use Restrictions” in the [General Terms](#), the End Client will ensure that End Client and its Users will not:

1. use the Services to create, train, test or otherwise improve any machine learning algorithms or artificial intelligence systems;
2. remove or alter any content credentials that may be generated with the Generated Output, or otherwise mislead any person that the Generated Output from the Services was solely human generated;
3. provide any personally identifiable information, including names, addresses, phone numbers, email addresses, or birth dates for processing via Generative AI Products, unless the End-Client complies with all data protection and privacy laws and regulations applicable to the personal information, including providing privacy notices and obtaining consent, where required;
4. attempt to bypass the protective measures to block harmful content.

Greenomy reserves the right to automatically block the End-Client's Input, at its sole discretion, if Greenomy believes it violates the rights of a third party, applicable law, or the Terms.

4. Input & Generated Output

4.1 Confidentiality

Greenomy recognizes and respects the sensitivity of the data provided by the End Client. Any Input furnished by the End Client will be treated as strictly confidential.

4.2 Ownership

The End-Client retains the ownership of the Input.

4.3 Intellectual Property Rights

Between the End-Client and Greenomy, Greenomy does not assert any ownership rights in the Generated Output, provided that the Generated Output does not contain any pre-existing Greenomy intellectual property.

4.4 Deletion

The User can access and delete the chat history or a specific conversation by clicking on the three dots in the upper-right corner of the screen, selecting "Show all conversations" and then "Deleting".

Upon request by the Client and/or End Client (support@greenomy.io) made following the expiration or termination of the Agreement, Greenomy will delete the Input and Generated Output from its systems, subject to any legal, regulatory, or compliance obligations that require its retention.

4.5 License to Greenomy

The End-Client hereby grants Greenomy a worldwide, non-exclusive, non-sublicensable, royalty-free, perpetual, irrevocable right to use, process, copy, reproduce, modify, and display the Input and the Generated Output solely as necessary (i) to provide the Services and (ii) to perform use case analysis, train, fine-tune, and improve non-generative AI models for internal purposes. The End-Client represents and warrants that it possesses all rights necessary to provide Input and to grant the licenses to Greenomy set forth herein to use the Input and the Generated Output as described.

Notwithstanding the foregoing, the End-Client may opt out of allowing the Input and the Generated Output to be used for the purposes set forth in (ii) by providing written notice to Greenomy (support@greenomy.io). If such notice is provided, Greenomy may still use the Input and Generated Output to provide the Services.

4.6 No Generative AI Training Use

Greenomy shall not, and shall not permit any third party to, reproduce or otherwise use the Input and Generated Output in any manner for the purpose of training generative AI models.

5. Privacy Policy Integration

Any handling of Personal Data by Greenomy will adhere to the EU General Data Protection Regulation 2016/679 (hereafter “GDPR”) as well as Greenomy’s privacy policy, accessible by clicking on the following link: <https://greenomy.io/privacy-policy>.

6. Disclaimers

6.1 Harmful Content

Due to the evolving nature of AI technologies, content produced by the Generative AI Products may exhibit a wide range of results and could potentially include offensive, harmful, inaccurate, or inappropriate content generated by Greenomy AI.

By using the Generative AI Products, the End Client acknowledges the possibility of encountering such content and agrees not to save, share, use, distribute, display, or otherwise disseminate any such content.

The End Client can report any such content to support@greenomy.com.

6.2 Duplicative Content

Customer acknowledges that the Generative AI Products may, in some scenarios, generate the same or similar content for multiple end-clients.

7. No Warranties

The Generative AI Products and the Generated Output are provided “as is” without warranty of any kind, and Greenomy does not warrant that the Generated Output is accurate, reliable, correct, non-infringing on third-party rights, suitable for fulfilling End-Client’s regulatory, legal or other obligations, or fit for any specific purpose.

The End-Client accepts that any use of the Generated Output is at its own risk, and Greenomy has no liability related to or arising from the End-Client’s use of generative AI features or the Generated Output.

The End-Client must use discretion when relying on, publishing, distributing, or otherwise using any Generated Output resulting from the use of generative AI features.

8. Content Credentials

Greenomy may attach content credentials to the Generated Output. These credentials serve as an indication of the sources used in generating the content, promoting ethical and transparent usage, allowing others to identify that the content was created using AI technology and providing insights into its sources.

9. Definitions

Any capitalised term used herein will have the meaning ascribed to it under this Section.

Term	Definition
Generative AI Products	Greenomy’s Platform generative AI products.

Generated Output	The data or content generated by Generative AI Products prompted by End-Client's Input.
Input	The data, text typed into, document, or content that the End-Client submits for processing by Generative AI features.
